SPS

Single Platform Scale

SPS provides a wide, flexible and cost-effective weighing solutions. It can be used in general, wet and dry environments. The variety of sizes and capacities allow you to use best platform for your application.

Also, OIML & NTEP approved loadcell and durable construction guarantees accurate and reliable weighing.

- Economical solution for accurate weighing
- Variety of sizes & capacities

SPS | Single Platform Scale

SPECIFICATIONS

Model	SPS3040	SPS4050	SPS5050	SPS6060	SPS8080
Max. capacity (kg)	150		300 / 500		
Approval	NTEP, OIML		OIML		
Platter size (mm)	300 (W) x 400 (D) / 400 (W) x 500 (D)		500 (W) x 500 (D)	600 (W) x 600 (D)	800 (W) x 800 (D)
Product weight (kg)	18	22.5	25.5	29.7	36.8
Pole	500mm		550mm	600mm	

FEATURES

- One load cell type for economical solution & large platter
- Rechargeable battery (40hrs)
- OIML & NTEP approved loadcell
- Rugged construction and high quality powder coating
- **Checkered Plate** or **Stainless steel** platform cover
- Connectivity with various indicators

OPTIONS

- Back rail

- Printer : DEP-50 (Ticket), DLP-50 (Label)
